

Birdwatching at Massa, Morocco you need a guide?

Lahsen and Edith

In January 2011, we spent some good days at Massa National Park with our excellent Moroccan bird guide

Lahsen Ahuilat

He showed us places, where we found the typical species like Bald Ibis, Black-crowned Tchagra, Little Owl, Moussier's Redstart, Stone-Curlew and many more.

Lahsen also took us to breathtaking coast-landscapes and invited us to a real Moroccan Couscous at his house.

Lahsen was recommended to us by the famous French birder

Patrick Bergier, author of the book

«A Birdwatchers' Guide to Morocco»

We can really recommend Lahsen as well, if you want to spend some interesting birding at Massa and surroundings.
